Install an epoxy floor to finish your garage or basement today!

In addition to being beautiful, our flooring systems are exceptionally functional. An epoxy flooring system will protect concrete from becoming stained and scuffed because the flooring systems are harder and more durable than concrete. No longer will your floor be as slippery when it’s wet. An epoxy floor will also lock in concrete dust that evolves and gets tracked into your home. On top of all that, our epoxy floors are incredibly easy to keep clean. They look beautiful and stay that way!

Why choose American Epoxy Floors?

- We offer products that the competition does not
- Integral cove base provides seamless wall to floor protection
- Drip coatings under sinks to prevent mold and mildew for a healthier home
- Almost any color you can imagine
- Locally owned and operated by a Chemical Engineer

APPEARENTLY, I‘VE DEVELOPED A CERTAIN REPUTATION IN THE COURTROOM.

Time taking a motorcycle injury case all the way to court is never easy. So, many attorneys simply try to avoid it. Trouble is, that may or may not lead to the best outcome for the client.

Me, I relish a good legal battle when necessary. And, yes, I can be rather dogged in pursuing my clients’ claims. But I pick my fights carefully. I accept a very limited number of cases per year and delegate nothing to junior attorneys.

If you have a serious injury and could benefit from this kind of determination, let’s talk. My name is Bob Karney and my wife says I look considerably nerier than my courtroom demeanor suggests.
